Without discipline, the life of an individual will become dull and inactive. Also, a disciplined individual can control and handle the situation of living in a sophisticated way than those who do not. Besides, if you have a plan and you want to implement it in your life. Then you need discipline. It makes things easy for you to handle. It ultimately brings success to your life.

If we talk about the types of discipline, there are two types. The first type is induced discipline and the second one is self-discipline. Induced discipline is something that others impart us or we learn by seeing others. While self- discipline derives from within. We learn it on our own self. Self-discipline needs a lot of motivation and support from others. Without discipline, the life of an individual will become dull and inactive. Also, a disciplined individual can control and handle the situation of living in a sophisticated way than those who do not. Besides, if you have a plan and you want to implement it in your life.
